UNITED STATES GOVERNMENT AGENCIES
VIETNAM TELEPHONE DIRECTORY SERVICE

The US Government Agencies Vietnam Telephone Directory is published semi-annually. This directory provides official information for use by the State Department and military activities in RVN.

Day by day changes to telephone listings and/or any inquiries concerning this directory should be sent to:

Commanding General
1st Signal Brigade (USASTRATCOM)
ATTN: SCCPV-TLMA
APO San Francisco 96384

Listings for each new directory will be verified prior to publication, in accordance with MACV directive 105-5.

Initial distribution of new directories will be in accordance with MACV directive 105-5. Requests for additional directories should be made to your local dial telephone exchange.

This directory was published on 1 August 1970. All previous issues are cancelled and should be destroyed. Use of obsolete directories will result in poor telephone service.

Information in this directory is provided solely by the telephone subscriber.

Tandem Area Index

The listings in this directory are organized alphabetically by tandem area. The index on this page includes the tandem areas covered by this directory.

GENERAL INFORMATION

1. REQUESTS FOR TELEPHONE SERVICE:

In order to facilitate and expedite telephone installations, moves and disconnections, a Telephone Coordinator should be established at each unit headquarters or separate activity. The coordinator will in turn contact the local telephone office on all telephone matters for his unit or activity.

A. US MILITARY TELEPHONE SERVICE
Requests are submitted on DA Form 11-154 - REQUEST FOR TELEPHONE SERVICE - (Army) and AF Form 1070 - TELEPHONE SERVICE REQUEST - (Air Force). Requests must be carefully screened for adequate justification and for completeness of information by the responsible telephone control officer of the activity requesting the service. Such information should include, as a minimum:

(1) Name and mailing address of activity requesting service.

(2) Location at which service is desired, e.g., street address, building number; room number, and/or desk. Information such as grid coordinates, nearest cross street, nearest landmark, etc., is also helpful.

(3) Name and telephone number of person with knowledge of exact location at which service is desired.

(4) Nature of service desired - mainline, extension, relocation, removal, etc., and number of mainlines and/or extensions involved. A maximum of three (3) extensions will be authorized per mainline.

(5) Complete directory listing for each subscriber involved.

(6) Number of mainlines and extensions already in existence at activity requesting service.

(7) Sketch map and/or floor plan if needed for clarification.

(8) Each request should specify class of service, either Class A-1, Class A-2, Class A-3, or Class C as described below:

(a) Class A-1 and A-2: US Dial Telephone Service for transaction of official business by US Military and Government Agencies. This class of service is authorized dial access to and from local civilian (PTT) and Vietnamese Military (ARVN) exchanges and is provided access to the US Military Long Distance (LD) circuits.

(b) Class A-3: This class of service is authorized dial access throughout the Republic of Vietnam portion of the Southeast Asia Automatic Telephone System. Subscribers are also authorized access to local civilian or hort country military subscribers. Access to AUTOVON either directly or through an operator is prohibited. Class A-3 service is limited to host country and allied personnel only.

(c) Class C: This class of service can direct dial any subscriber within the local tandem area.

NOTE: The design criteria of the Military Dial Telephone Exchange (DTE) requires that not more than 20% of the telephones served be provided Class A service; therefore, telephones classified as such must be held to the minimum essential required.

B. VIETNAMESE CIVILIAN, PTT, AND ARVN SERVICE: Requests will be submitted as in A above with the following additional information:

(1) Justification for the need for commercial or Vietnamese Military service, and why US Military Telephone Service is not suitable.

(2) Activity to be billed for the service.

C. Requests for telephone service in the Saigon area should be submitted to the Telephone Management Office, USASTRATCOM Signal Support Agency Saigon, APO 96307.

D. Requests for telephone service in the Long Binh area should be submitted to the Telephone Management Office, (TMO), Hq 160th Signal Group, APO 96491.

E. Requests for telephone service on Tan Son Nhut Air Base should be submitted to the 1876th Communications Squadron, APO 96307, ATTN: TC.

F. Requests for telephone service outside the Saigon/Long Binh area should be submitted to the Communications Officer of the area or installation concerned or the OIC of the local Dial Telephone Exchange.

G. Telephones and telephone equipment will be maintained and moved by authorized personnel only. Unauthorized tampering with telephone equipment may result in loss of service. Telephone service calls should be directed to the numbers that are listed under SERVICE NUMBERS of each exchange.

GENERAL INFORMATION (CONT'D)

2. TO IMPROVE YOUR TELEPHONE SERVICE:

A. Always consult your directory for correct listing. Call by number for faster service

B. Should you not immediately receive dial tone, be patient, hold for about twenty (20) seconds, then hang up and try again. (Pause in receiving dial tone is due to busy line equipment.)

C. Identify yourself immediately to the first person answering the called number.

3. POOR OPERATOR SERVICE:

The procedure for registering complaints concerning poor operator service is as follows:

A. Ask for the Chief Operator.

(1) Tell the Chief Operator the position number.

(2) Explain to the Chief Operator the nature of your complaint.

4. MONITORING OF TELEPHONE CALLS:

A. Your telephone call may be monitored for unofficial traffic, vulgarity, and discussion of classified information.

B. Any telephone circuit in the Military Telephone System is subject to monitoring by authorized representatives of the US Government for the purpose of determining abuses of the Joint Uniform Telephone Communications Precedence System and security violations.

5. PERSONAL OVERSEAS TELEPHONE SERVICE:

A. Personal overseas telephone service is available in the following localities: Saigon, Phu Bai, Da Nang, Chu Lai, Cam Ranh Bay, Long Binh, Nha Trang, Phu Cat, Qui Nhon, An Khe, Pleiku Air, Pleiku LSA, Quang Tri, Plantation, and Tan Son Nhut. Personnel desiring to take advantage of this service should contact their local USO or Red Cross representative to determine the exact location of the facilities and the operating schedule.

(1) For station-to-station calls the rate is $3.30 per minute. For person-to-person calls the rate is $4.40 for the first three minutes and $3.30 for each minute thereafter. These rates include taxes.

(2) No reservations will be accepted. Service is provided on a first-come first-served basis. The only priority accepted is a Red Cross verified emergency.

(3) Calls may be placed from USO facilities to CONUS, Alaska, Hawaii, Puerto Rico, Canada, Virgin Islands, and Mexico.

B. Personal calls to other countries must be made from the PTT Building, #2 John F. Kennedy Square, Saigon.

6. INFORMATION CONCERNING ARVN AND PTT TELEPHONE SERVICE:

A. ARVN (Vietnamese Military) and PTT (Vietnamese Civilian) telephone systems are independent systems:

(1) Telephone numbers in the ARVN exchange systems are:

993 0000 thru 32979	995 0000 thru 51939
994 0000 thru 41779	996 0000 thru 61779

(2) Telephone numbers in the PTT exchange are:

902 0000 thru 5999	(Saigon Area)
903 6000 thru 8399	(Cholon Area)
904 0000 thru 1999	(Gia Dinh Area)
905 0000 thru 1999	(Cholon Area)
909 0000 thru 3999	(Saigon Area)

B. To reach a PTT number from an ARVN "Class A", "B" and "C" telephone, dial 90, wait for dial tone, then dial number.

C. "Class D" ARVN telephone subscribers cannot dial into the PTT system.

D. "Class A & B" ARVN telephone subscribers can dial 110 to get LD service.

E. PTT telephone subscribers can dial directly into ARVN telephone exchange using the following instructions:

(1) PTT #903 6000 to 903 8399 dial 8, wait for dial tone then dial number desired.

(2) PTT #904 0000 to 904 4999 and PTT #909 0000 to 909 3999 dial 88, then dial number desired.

(3) PTT #902 0000 to 902 5999 dial -24911 and -24575, ask operator for number desired.

JOINT UNIFORM TELEPHONE COMMUNICATIONS PRECEDENCE SYSTEM

1. The Joint Uniform Telephone Communications Precedence System, which became effective 1 September 1965, is directed for use by all authorized users of the voice communication facilities of the Department of Defense. Since the effectiveness of the system depends upon cooperation on the part of persons authorized to employ it, users must be familiar with the purpose to be served by each precedence category and the types of calls which may be assigned the respective precedences. Each authorized user should consider whether a call requires special precedence and exercise care not to request or use one higher than the circumstances require.

2. The Joint Uniform Telephone Communications Precedence System does not make specific provisions for the conduct of test and exercise calls. Those activities or individuals authorized or required to conduct such tests and exercises will employ precedences consistent with the nature of the test or exercise, and upon contacting the called party will identify the call as a FLASH test call, IMMEDIATE test call, or PRIORITY test call.

3. Calls of a given precedence will not normally pre-empt calls of an equal precedence. However, calls originated by the President of the United States, Secretary of Defense and Joint Chiefs of Staff can pre-empt FLASH calls in progress by application of their FLASH OVERRIDE capability. In addition, commanders of unified and specified commands when declaring either Defense Condition one or Defense Emergency and CINCNORAD when declaring either Defense condition one or Air Defense Emergency may also pre-empt FLASH calls in progress by application of the FLASH OVERRIDE capability.

4. The precedence indicators listed on following page are directed for joint use and specify, by military precedence designator, the relative order in which telephone calls should be handled based on the importance (content) of the call.

JOINT UNIFORM TELEPHONE COMMUNICATIONS PRECEDENCE SYSTEM CHART

MILITARY PRECEDENCE DESIGNATOR	APPLICATION
FLASH TRANSMISSION PRE-EMPTION Has Precedence over any other telephone call of lower precedence. Pre-empts lower precedence calls. May be pre-empted by the application of the FLASH OVERRIDE capability available to: (1) President of the US, Secretary of Defense and Joint Chiefs of Staff; (2) Commanders of Unified and Specified Commands when declaring either Defense Condition One or Defense Emergency; (3) CINCNORAD when declaring either Defense Condition One or Air Defense Emergency.	Flash Precedence is reserved for alerts warnings, or other emergency actions having immedate bearing on national, command, or area security. (e.g., Presidential use; announcement of an alert; land, air, or sea catastrophes; intelligence reports on matters leading to enemy attack; potential or actual nuclear accident or incident; implementation of services unilateral emergency actions procedures, etc.)
IMMEDIATE Has Precedence over any other telephonic call of lower precedence calls. Pre-empts lower precedence calls.	Immediate Precedence is reserved for vital communications (1) having an immediate operational effect on tactical operations, (2) which directly concern safety or rescue operations, (3) which affect the intelligence community operational role. (e.g., Initial vital reports of damage due to enemy action; land, sea or air reports which must be completed from vehicles in motion such as operational mission aircraft; intelligence reports on vital action in progress; natural disaster or widespread damage; emergency weather reports having an immediate bearing on mission in progress; emergency use for circuit restoration; use by tactical command posts for passing immediate operational traffic, etc.)
PRIORITY Has Precedence over any other telephonic calls of lower precedence. Pre-empts lower precedence calls.	Priority Precedence is reserved for calls which require prompt completion for national defense and security, the successful conduct of war or to safeguard life or property, which do not require higher precedence. (e.g., reports of priority land, sea, or air movement; administrative, intelligence, operational, or logistic activity calls requiring priority action; calls that would have a serious impact on military, administrative, intelligence, operational or logistic activities if handled as a ROUTINE call.) "Normally, PRIORITY will be the highest precedence which may be assigned to administrative matters for which speed of handling is of paramount importance."
ROUTINE Has no Precedence over any other call and is handled sequentially as placed by the calling party. No pre-empt.	Routine Precedence is reserved for all other official communications.

AUTOVON AND OVERSEAS DIALING INSTRUCTIONS

GENERAL INFORMATION

THESE INSTRUCTIONS ARE APPLICABLE TO THE AUTOVON AND NON-AUTOVON OUTGOING OVERSEAS CALLS MADE FROM VIETNAM THROUGH MILITARY FACILITIES.

DIALING PROCEDURES

1. Class A-1 and Class A-2 subscribers in RVN can access the AUTOVON System or an overseas operator by dialing Nha Trang JOSS 8-960-1211 or Saigon JOSS 8-962-1101. In addition to these numbers, subscribers served by the Long Binh, Tan Son Nhut, Tiger, and MACV dial telephone exchanges can access AUTOVON or overseas operator by dialing 110.

2. The following information is common to any outgoing overseas call regardless of number dialed for access.

a. Plan your call.

b. Obtain an overseas control number from your unit's telephone control number releasing authority. A new control number must be obtained for each separate overseas call to be completed.

c. Dial one of the access numbers. If contact cannot be established dial zero for operator assistance.

d. Give the overseas operator the following details:

(1) Your overseas control number.
(2) Precedence level of call.
(3) Number and location of party to be called.
(4) Any other information required by the overseas operator.

e. All calls placed through the overseas switchboards are subject to monitoring. All unauthorized personal calls intercepted by the operator will be disconnected. All violations will be reported to the proper authorities for disciplinary action.

3. Vietnam subscribers have the capability of making official overseas calls to Australia, Hong Kong, Indonesia, and Singapore. The overseas operator for these locations can be reached by dialing 8-962-1101. Subscribers served by Long Binh, MACV, Tiger, and Tan Son Nhut dial telephone exchanges can also dial 110.

4. The following procedure is applicable to calls destined for Australia, Hong Kong, Indonesia, and Singapore.

a. Plan your call.

b. Have the correct telephone number of the party to be called.

c. Call an overseas operator and ask for the commercial telephone call releasing authority.

d. Give the releasing authority the following details:

(1) Precedence of call.
(2) Name, grade, and organization of party making call.
(3) Name, location, and telephone number of party being called.
(4) Any other information which may be requested.

e. The overseas operator will automatically intercept call after issuance of control number.

f. Give the overseas operator the control number you were assigned.

DIALING INSTRUCTIONS

NOTICE

CALLS OF PRIORITY OR HIGHER SHOULD BE PLACED THROUGH YOUR LOCAL OPERATOR. HOWEVER, THE SUBSCRIBER SHOULD KEEP IN MIND THAT THE SOUTHEAST ASIA AUTOMATIC TELEPHONE SYSTEM IS NOT SECURE AND CLASSIFIED INFORMATION SHOULD NOT BE DISCUSSED.

INTER-TANDEM DIRECT DIALING

1. Only Class "A" subscribers can dial from one Tandem to another Tandem area.

a. Consult your directory for correct listing.

b. Dial the digit eight (8) and wait for the second dial tone.

c. Next, dial the complete seven digit number of the called party. Tandem area code (three digits) plus extension number (four digits). (Note: After dialing is completed a delay of two to five seconds will occur before ringing is heard.) Do not attempt to speed dial, allow the dial to return under its own momentum otherwise numbers will not register properly at distant exchange.

FOR EXAMPLE: A subscriber at Binh Thuy AB wishes to call a subscriber at Da Nang AB. The Binh Thuy subscriber would dial 8-957-5151 and would be connected directly to the subscriber at Da Nang AB, with extension number 5151.

INTER-TANDEM DIRECT DIALING ASSISTANCE/ INFORMATION

2. Procedure to follow:

a. Consult your directory for correct operator assistance/information number.

b. Dial complete number to include prefix digits.

FOR EXAMPLE: Sunscriber at Pleiku wishes to get dial assistance at Bien Hoa AB. Pleiku sebscriber would dial 8-921-0121. Bien Hoa assistance/Information operator would process the call.

CALLS TO A DIAL EXCHANGE WITHIN A TANDEM AREA

3. Procedures to place a call to a dial exchange or local area switchboard. These instructions are applicable to Class "A" and Class "C" subscribers.

DIALING INSTRUCTIONS (CONT'D)

a. Consult your directory for correct listing.

b. Dial complete seven digit number of called party.

c. In those instances where local area dial exchanges are not connected by direct trunks, Class "A" subscriber can dial the digit eight (8), wait for the second dial tone, then dial the seven digit number of the desired subscriber.

FOR EXAMPLE: A Long Binh subscriber would dial MACV 923-3639. In order for a Vung Tau subscriber to call Cu Chi, where direct trunks are not available, the Vung Tau subscriber would dial 8-925-5186.

d. If the call is going to a subscriber served by a manual switchboard, the Class "A" subscriber would dial "0" and give the operator the switchboard name and the extension number of the desired party.

FOR EXAMPLE: A subscriber at Nha Trang desires a subscriber at Hon Tre, the Nha Trang subscriber dials "0" and asks the operator for Hon Tre 136.

LOCAL CALLS

4. Procedures for placing a local call. (Class "A" or "C")

a. Consult your directory for correct listing.

b. Dial the last four digits of the listed number.

FOR EXAMPLE: A subscriber within any dial exchange dials the last four digits to reach the desired party.

INFORMATION/ ASSISTANCE

5. Procedure for obtaining information assistance.

a. For local information dial 113.

b. For dialing between Tandem areas, the subscriber would dial the distant information assistance operator. Procedures for obtaining this service is as follows:

(1) Dial the digit eight (8).

(2) Wait for second dial tone, then dial the seven digit number of the information operator at the desired distant telephone exchange.

FOR EXAMPLE: A Qui Nhon subscriber desires information concerning a subscriber number at Tan Son Nhut. The Qui Nhon subscriber would dial 8-924-0121. The subscriber would then ask the operator for the desired information.

CALLING A MANUAL EXCHANGE

6. Procedure for calling a party served by a manual telephone exchange.

a. Consult page XIII for operator assistance number at the dial exchange which serves the distant manual telephone exchange.

b. Dial the digit eight (8), wait for the dial tone then dial the seven digit number for operator assistance.

c. Give the operator the name of the manual switchboard and the number desired.

FOR EXAMPLE: A MACV subscriber wishes to call a subscriber located at Dong Ha. The MACV subscriber would dial 8-956-0121 to obtain the Phu Bai operator who would then process the call to the Dong Ha switchboard and the desired party.

CALLING FROM A MANUAL EXCHANGE TELEPHONE

7. Procedures for making a long distance call from a manual exchange telephone.

a. If the call is going to a dial exchange give the local operator the complete seven digit number of the desired party.

b. If the call is going to a manual exchange, give the operator the name of the manual exchange and the desired extension number.

FOR EXAMPLE: A Dong Tam subscriber wishes to call a subscriber at Qui Nhon. When the Dong Tam operator answers, the subscriber asks for 945-2384. The operator will process the call to the subscriber at Qui Hon extension 2384.

WHEN YOU MAKE A TELEPHONE CALL

ALWAYS REMEMBER TO

1. PLAN AN EFFECTIVE CONVERSATION.
2. PLACE THE CALL YOURSELF, EXCEPT IN SPECIAL CIRCUMSTANCES.
3. HAVE THE CORRECT NUMBER *[OR EXTENSION]* IN MIND.
4. LISTEN FOR DIAL TONE—DIAL CAREFULLY.
5. IDENTIFY YOURSELF IMMEDIATELY TO THE FIRST PERSON ANSWERING THE CALLED TELEPHONE.
6. IDENTIFY ALSO WHEN HELPFUL, YOUR OFFICE AND PURPOSE IN CALLING.
7. ASK WHETHER CALLED PERSON HAS "TIME TO TALK NOW" IF CALL IS LIKELY TO BE LENGTHY.
8. TRY TO COMPLETE YOUR BUSINESS ON ONE CALL BY SECURING INFORMATION OR LEAVING A MESSAGE.
9. VOLUNTEER YOUR EXTENSION AND THE BEST TIME TO REACH YOU IN CASE YOU REQUEST A "CALL-BACK".
10. KEEP YOUR CONVERSATION BRIEF AND BUSINESSLIKE.
